COMPANY PROFILE

WHY *INOVASYS* IN INTELLIGENT BUSINESS SOLUTIONS?

- At **Inovasys**, we turn complexity into clarity. We blend process expertise with Microsoft's latest technologies from Power Platform to Copilot to deliver real, measurable business impact. Whether it's automating operations, deploying AI agents, visualizing data, or scaling custom apps we build solutions that fit your needs and grow with you.

- Our team goes beyond implementation—we empower your people to become AI-powered users through adoption, enablement, and smart design. With Inovasys, intelligent business isn't a promise, it's a proven capability.

COMPANY PROFILE

CUSTOMIZED AUTOMATION SOLUTIONS
(BUSINESS PROCESS OPTIMIZATION & AUTOMATION)

We help organizations streamline operations by identifying process bottlenecks and implementing tailored Intelligent Process Automation (IPA) solutions, including Robotic Process Automation (RPA) and Intelligent Document Processing (IDP). Using tools like Microsoft Power Automate, we deliver automation aligned with the specific needs of each business unit—reducing manual effort, minimizing errors, increasing efficiency, and lowering operational costs.

INTELLIGENT AGENTS
(BUILT WITH COPILOT STUDIO, POWERED BY GENERATIVE AI)

We design AI-powered virtual assistants using Microsoft Copilot Studio, embedding Generative AI to enable natural, context-aware interactions. These intelligent agents handle complex queries, retrieve information, summarize content, and trigger workflow operating seamlessly across Microsoft Teams, web portals, and customer service channels. They provide 24/7 support, reduce reliance on human service desks, improve user satisfaction through adaptive responses, and scale effortlessly across internal and external touchpoints.

DIGITAL TRANSFORMATION

COMPANY PROFILE

DATA-DRIVEN INSIGHTS
(BUSINESS INTELLIGENCE WITH POWER BI)

We transform raw data into meaningful, interactive visualizations using Microsoft Power BI, empowering organizations to make informed decisions with confidence. Our custom dashboards and real-time reports provide clear visibility into KPIs, performance metrics, and operational trends enhancing cross-departmental alignment, reducing reliance on manual reporting, and establishing a strong foundation for advanced analytics and data-driven strategies.

ENHANCED PRODUCTIVITY & EFFICIENCY
WITH M365 COPILOT

Through tailored adoption workshops, we help organizations integrate Microsoft 365 Copilot to drive productivity and maximize value. M365 Copilot enhances daily workflows by automating repetitive tasks, generating content, summarizing meetings, and improving collaboration across Microsoft 365 applications. This results in more time for high-value work, increased employee efficiency, improved user experience, and faster return on investment through accelerated adoption.

INTELLIGENT BUSINESS SOLUTIONS

COMPANY PROFILE

SCALABLE SOLUTIONS
(BUSINESS APPLICATIONS WITH MICROSOFT POWER PLATFORM)

We design and deliver Low-Code/No-Code business applications using the Microsoft Power Platform to streamline and modernize operations across the enterprise. Leveraging Power Apps, Power Automate, Dataverse, and other platform capabilities, we build applications that address diverse needs—from document, inventory, and asset management to employee onboarding, customer request handling, expense tracking, approval workflows, and compliance reporting. Designed for scalability and adaptability, these solutions evolve from simple team tools to enterprise-grade applications without redevelopment. This approach accelerates deployment, reduces reliance on manual processes, empowers both business users and IT, and lowers development and maintenance costs.
